REAL AIR RAID ALARM
A woman visiting the west coast writes of her first air raid alarm, and according to an exchange, she merely stirred uneasily at the sound of the siren, similar to the fire alarm at home. In view of the expected test in this area any night now, her experiences should make interesting reading for local citizens.

She says her daughter, staying with her at a small hotel outside an army camp, was already dressing. "Air raid," she said quietly. "Warm clothing, watch, money, dispersal to the woods."

In less than five minutes, hastily but warmly dressed, they were at the outer door as the last three officers, there with their families, ran silently out ahead of them, dressed to the last perfect button. Others were hurrying through the camp gates.

Two things impressed the woman most. First, the speed and silence with which the soldiers sped to their stations, perfectly accoutered. She had seen the officers before only as men at ease in any resort, laughing, lounging, reading, playing games. These grim men speaking with swift and purposeful steps in the silence were different.

The women moved quickly and quietly, too, and handled their children well. But their clothing was appallingly inadequate. They shivered and were miserable with chill and the difficulty of walking through woods in high-heeled slippers, often carrying small children. Sitting on logs in the foggy, clammy northwestern crack of dawn came hard on them.

The all-clear sounded in a few minutes. Early hot coffee felt good. "Not a test drill," said the desk clerk. "Just a couple of unidentified planes. All real."

No city is safe. Winter is coming. Warm sweaters, hose, shoes, coats should be near every bed. Overseas people know what outdoor cold means when homes are burning, and warm clothing along with them. It's well to learn before it happens.

INVENTORY CONTROL
Copper, both pure and in alloys, is so scarce as to constitute a major production bottleneck. But the War Production Board has found a lot of copper, brass, etc., lying around doing nobody any good.

Thus far fifteen thousand tons—29,700,000 pounds, to be exact—has been recovered from places where it was lying idle, and has been put to work. Part was in idle inventories. Some was usable without reworking. Some had to be remelted.

This is going to be a major WPB task from now on—recovering critical materials that were lost in the early confusion and getting them to producers who, without them, will be unable to go ahead with war work.

GO SLOW—FOR VICTORY
Are you one of us who burn up when the tire torturers streak by, at a hot 50?

Do you get all bothered when the other fellow reels around the curve, his tires squealing in protest against such sabotage of our economy?

Does it make you want to commit mayhem when the light turns red and a speedster snaps on his brakes and slides to a stop?

The National Safety Council has a suggestion which in time might help. In such cases, give the hog three shorts and a raucous long on your horn—International Morse for Victory's V.

Looks like September 29th is going to be a big day for folks up at Sheffield, with the O'Connor Machine Company holding the spotlight from 12:45 to 1:15. Congratulations!

Some of the stores are having fall openings and style shows this evening. You'll find a tour of the business section very much worth while. Better turn out.

Tickets are out for the Hallowe'en celebration sponsored by the North Warren Civic Club. Winter's just around the corner!

You're a sound sleeper if you failed to wake up during that storm of early this morning.

WASHINGTON IN WARTIME
(Second Of Two Stories)
By JACK STINETT
WASHINGTON—The air raid drills are getting a little monotonous in many cities. Almost any honest civilian defense official will tell you that that is one of the commonest complaints he hears.

But from now on, it's a complaint that will be heard much less often in many sections. The Civil Air Patrol is providing the "kicker" that takes all the dullness out of them.

Already in Worcester, Mass., and Birmingham, Ala., the CAP has given the bomb-droppers, the air raid wardens, the auxiliary firemen and police, the first aid station workers and the ambulance drivers something to think about.

They have "bombed" the day-lights out of military objectives and civilian areas in those two experiments and in both cases the experiment has proved so successful that many cities in danger zones may get a taste of it soon.

DETAILS of the "bombing" of Worcester and Birmingham now are being spread on the record here by Maj. Earle L. Johnson, national commander of the CAP, and under his direction plans are being perfected for giving other strategic cities a taste of what they might expect if the enemy got tough with long range bombers.

In Birmingham, 50 CAP planes of the Alabama Wing, loaded with bags of sawdust bombs (the CAP used two-pound sacks of flour in the first experiments but after they had knocked a few civilians on the noggin, they switched to sawdust) descended on the city from all directions.

No Flying Fortress raid on Germany or Japan could have been more thoroughly worked out. Each pilot, working from gridded maps, had his objective and the red sacks (for incendiaries) and the yellow sacks (for demolition bombs) that rained on Birmingham left no doubt in the minds of public and civilian defense workers alike that it could happen here.

WAR plants were wrecked. The homes of workers were blasted in a sawdust shower. One big apartment building was blown half away and rescue crews evacuated the "dead" and "wounded." Ambulances rushed the latter to first aid stations and hospitals.

Fire fighting crews battled the "incendiaries."

And according to reports, Birmingham and Worcester got a taste of what it might be like.

It's one thing—in a blackout—to turn out the lights and go to bed and forget about it. It's quite another to see a yellow bag hurtling into your front yard and realize that if that were a bomb, it would mean an end of life for you and yours. It's something else, too, to have a red "incendiary" thud on the roof and realize that if it were real, only your own training and the speedy action of the fire fighters in your neighborhood could save your home from the ash heap.

These simulated bombings of strategic cities in the coastal and border areas are just a little sideline the Civil Air Patrol has worked up in its none too spare time. Officials here think now that they may prove a more valuable stimulus to air raid defense than anything that has been devised.

MAN ABOUT MANHATTAN
By GEORGE TUCKER
NEW YORK—A lot of interesting books have come out of this war, but the one with the best title hasn't been published yet—though it will be shortly.

This is "Exchange Ship" by Max Hill, for two years AP Bureau chief in Tokyo, and who, himself, just got back to the U. S. on the Exchange ship Grimsolm. Hill spent six months of his two years in prison. He never met his attorney, the man who defended him, though the Japs called around themselves to collect his attorney's fees. Nice people.

ANTONIO CANSINO, considered by an earlier generation to be a great dancer, is now 83. What pleases him most is not the remembered glories of his own heyday, but that his granddaughter, Rita Cansino, is considered a grade-A dancer too.

Now the name Rita Cansino probably means very little to you, but it will mean more when you recall that Rita was more familiarly known as Rita Hayworth to her pals in the films.

Miss Hayworth at the moment is making a picture with Fred Astaire called "You Were Never Lovelier" and they finally persuaded the old man to visit the set. Everybody was very nice to him. They explained everything to him.

Finally Grandpapa Cansino quietly drew Rita Hayworth aside. "Tell me," he said, "what does 'terrific' mean?"

Recently this reporter quoted a chief petty officer of the navy as a rule were very well when they attempt revivals. "Abie Irish Rose" is a part of the veritable Broadway history, yet it was an abrupt failure when it was revived a couple of years ago. What will happen to "Tobacco Road" no one at this writing can tell. But it seems to me the public was fairly thoroughly milked by the years and years it remained on Broadway, dropping from \$3.30 audiences until a dollar top was finally in vogue. The seats are a dollar top this time and perhaps there are enough of the curious who will spend a dollar to make the "Road" return a success. It is my hunch that "Road" will not long remain in our midst. With a world at war the public can't be too interested in a phoney picture of a part of southern life that doesn't really exist. As buffoonery on a lavishly vulgar scale, however, it's a holiday.

Youngsville Fair Will Open Thursday; Plans Completed

Youngsville, Sept. 15—The 12th annual community fair is opening Thursday of this week at 9 a. m. when exhibits may be placed. Two features for Thursday evening are the Dog Show at 7:30 p. m. preceded by a band concert. Each of

the three evenings there will be a band concert. It is now expected three bands will appear, the National Forge Band, the V. E. W. Band of Warren and the Youngsville High School Band.

Friday exhibits will be judged. It will be a full day, a contest in poultry judging is scheduled. There will be the always popular horse pulling contest and in the evening at 7:30 p. m. a horse show of local classes. Registrations are coming and all the horse events promise to be good.

The chairman of the various departments of the fair urges all those who can to exhibit and place exhibits early. The Home Making Department will appreciate a large display as this department is of especial interest to the ladies. Officials have been fortunate in securing for judges Mrs. Thelma Prendergast of Warren, Mrs. Allen Frank of Sugar Grove and Miss Kathryn Keslar also of Sugar Grove.

Saturday the final day of the fair will be marked by two horse shows, one at 1 p. m. and the second under flood lights at 7:30 p. m.

Some of the concessions are already located on Island Park and as in former years the motto of the Fair Board is "The best fair possible."

An improvement this year is special pens for cattle, sheep and hogs. This will mean that these animals will not have to be removed Friday to make room for the horses in the horse show but can stay until the end of the fair.

V LETTER PRAISES RED CROSS WORK

More special government V-Mail has been received by local parents of boys in the armed forces overseas, the latest a letter from Sgt. H. L. Seymour, somewhere in England, to his parents, Mr. and Mrs. Alta Seymour, 127 Russell street. He writes in part:

"Dear Folks: "I wrote to you yesterday by the regular mail but this new style of letter is supposed to be much faster so I'm trying it out. We are only able to get one of these forms every two weeks. This letter will be photographed and sent to the U. S., where it will be printed and sent on to you. "We arrived here without any trouble and I'm alright and feeling fine so don't worry about me. All the mail is censored so there isn't much of anything I can write about."

In another V-letter, he writes: "Everybody in the battery got a bag from the Red Cross today. In it there was a pack of gum, a Naps Helps the Japs", "If We Equip Them Our Boys Will Whip Them." "Minutes Saved Here Mean Lives Saved There."

American workers are slugging as well as producing for victory. Here are a few slogans suggested by workers: "He Who Naps Helps the Japs", "If We Equip Them Our Boys Will Whip Them." "Minutes Saved Here Mean Lives Saved There."

All America Knows Budweiser... but Few Know This

FROM GLACIERS TO GLIDERS

Thousands of retailers of ice cream and frozen foods are using equipment made by our Refrigeration Division—a manufacturing activity which was developed from our years of experience in making ice in glacier-like quantities needed for the brewing of Budweiser.

This equipment is helping to keep America's foods fresher and more nutritious.

Today, however, orders for ice cream and food cabinets will have to wait, for this Division is working all-out on glider wing and fuselage assemblies for our Army Air Forces.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX—Our plant is one of the world's largest sources for manufacturers of pharmaceutical and food products.

VITAMIN D—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

BAKER'S YEAST—We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread.

CORN SYRUP—many millions of pounds annually for America's candy industry.

SYRUPS—for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH—for food, textile, paper and other industries—millions of pounds annually.

VITAMINS FOR LIVESTOCK—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

DIESEL ENGINES—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

Vessel Sunk After Battle off Midway

eastward toward Pearl Harbor. The navy said in its communique reporting the loss today that by the morning of June 6 the prospects of saving the great ship "appeared brighter."

They had been slender at first for the vessel had listed heavily, and, abandoned by her crew, was in imminent danger of capsizing. But shortly after noon on June 6, an enemy submarine suddenly attacked the stricken carrier, scoring two torpedo hits amidships. The sub put two more deadly torpedoes into the United States destroyer Hammann which was escorting the Yorktown.

The Hammann, loss of which had been reported by the navy department on June 14, sank shortly after being hit and the condition of the Yorktown "became critical," the navy said.

As for casualties, the navy said, they were few and had been included in the total personnel losses previously announced for the battle of Midway as 92 officers and 215 enlisted men.

The Yorktown and the Hammann were the only United States ships lost at Midway while the Japanese had at least two, including four aircraft carriers, sunk and at least 13 others, including three battleships, damaged.

cow, Red Star said Russian forces had recaptured three heights and had repulsed five enemy attacks in one sector, defeating two Hungarian regiments, two German battalions and wrecking 20 tanks.

A new Russian crossing of the Don in this region also was reported.

Red navy sailors and marines athwart the Axis ship down the Black Sea coast from Nazi-occupied Novorossiysk were declared to have flung back an attack in one sector and wiped out enemy infantry forces elsewhere during a three-day fight.

Soviet fliers and anti-aircraft gun crews brought down 35 German planes in 24 hours, the mid-day communique said.

The Germans lodged their new wedge in Stalingrad's western defenses only at heavy cost and artillery and anti-tank rifles alone accounted for half a dozen Nazi tanks, the communique said.

German tanks now are pulling light cannon behind them, a dispatch to the army newspaper Red Star said. Nazi artillerymen scramble from their perches on the guns or the armored vehicles when an advance is made, unlimber and take stations in support of the tanks, it reported.

picked the children up in a stolen station wagon Monday night near their home here and drove four miles out of town.

It was day's end to what police described as the most shocking one-man crime wave recorded in this residential community—a day that started early Monday when Haight stole the station wagon from a Stamford resident and started a day-long period of accounting women.

Hundreds of police, volunteer firemen and citizens, armed with rifles and clubs, scoured the countryside after three playmates found the beaten body of Margaret.

The body was bound by cord wound twice around the legs just above the ankles. Her head was crushed. There were deep bruises on the body; the lips were cut.

The slain children were the daughters of a middle-aged salesman, Patrick Lynch, who first notified police of their disappearance when they failed to reach home for supper.

Their mother, a tuberculosis patient in nearby Grasslands hospital the last six years, was told only that Margaret was killed in an "auto accident."

merce, and Gill Robb Wilson, state aviation director, for the Republican nomination to the U. S. Senate. Both accused President Roosevelt's administration of bungling the war effort.

Four other contestants were out of the running. The winner on the Republican side, Governor Leverett Saltonstall was unopposed for re-nomination. The party's only statewide contest resulted in a landslide for Lodge over Courtenah Crocker, Boston.

Wisconsin's comparatively light voting appeared to have been sufficient to give Heil the Republican nomination to a third term over his two opponents, State Senator Milton T. Murray and James K. Robinson, Milwaukee.

One of the incumbents who failed to obtain re-nomination was U. S. Senator Wall Doxey who lost out in Mississippi's run-off Democratic primary to a newcomer in politics, James O. Eastland, 37-year-old attorney and cotton planter. Democratic nomination is tantamount to election in Mississippi.

The Massachusetts Democratic primaries brought victory to U. S. Rep. Joseph E. Caesar and Mayor Roger L. Putnam of Springfield for the senatorial and gubernatorial nominations. Putnam defeated

former Lieut. Governor Francis E. Kelly while former Mayor John F. Fitzgerald, Boston, conceded the senatorial nomination to Casey. In New Hampshire, U. S. Senator Styles Bridges obtained the Republican renomination by an overwhelming majority. Francis P. Murphy, twice Republican governor of the state who shifted allegiance to the Democratic party last June, will face Bridges on election day.

Potato Growers Have Sold 11,000 Pecks of County Spuds

Wet weather and some blight has affected the potato crop in Warren county, according to advices from the County Farm Bureau. The indications are good however that a fair yield will be secured and the quality will be high. The Warren County Potato Growers Association is a member of the marketing association and so far this year has sent to market through the association more than 11,000 pecks of spuds. All are carefully graded and packed in paper sacks.

At Pittsburgh Tuesday the potato marketers held a conference but due to the rubber situation Warren County was not represented but was among counties to present a report.

The "Nittany" early potato characterized in a speech by Secretary of Agriculture, John H. Light, as one of the best early varieties is grown in this county extensively. Research work of State College was also praised by the secretary.

CHARLIE McNETT IS VET SMOKE EATER

In a recent issue of Fire Engineering published in New York City there is an interesting sketch of Charles L. McNett, Chief of the Clarendon Fire Department, who on October 27 will round out another milestone of life. The sketch follows: "C. L. McNett, better known to firemen in this section as 'Charlie', was born at Corry, October 27, 1865. His family moved to Union City a short time later and in 1875, at the age of ten, he was made torch boy for the Hunter Hose Company in that city. He later moved to Clarendon where a fire department was organized in June 1882. He joined the Clarendon Department as a charter member and on July 5, 1890 was elected Chief and has been serving in that capacity ever since. Today at the age of 76 he is very active and responds to all calls with his department. He is also active in fireman's affairs and is the 'daddy' of the Warren County Fireman's Association."

STORM SWEEP VICINITY
One of the most severe wind and rain storms accompanied by heavy thunder and lightning swept over Warren and vicinity this morning. Starting shortly before 1 o'clock the storm grew in intensity for some time and lashed its force over a large area. Trees were damaged and the streets this morning were covered with debris. An awning at the Style Shop was damaged; a tree in front of the Mescham home in Crescent Park avenue was damaged. Near Russell a tree was thrown across the highway by the storm and a car was driven into it but no serious damage resulted.

 Unchanged from yesterday.

With an unusual heat wave hiking the temperature to 85 degrees, Fahrenheit, the 1942-43 league bowling season made its debut last night in the community with the Industrial League dusting off the alleys at the Penn Bowling Center and the K. of C. loop polishing the lanes at the Arcade Recreation.

From here on, though most of last evening was spent by legions tuning up their instruments, it will be a symphony of falling pins as the best and weakest league bowlers bid for fame, fortune, and a few high scores along the way. The humidity from which there was no escape played havoc with many a bowler's scores, but regardless of this fact, Frank Rossell, who last year managed the Moose lanes, was able to hang up a 626 series as the Forge Heat Treat took three points from the Forge Shop in one Industrial set-to. He pitched a 233 opening game, dropped to 174 in the second, but rallied with 219 in the third to head all individual efforts. Bab's Barbers took their Industrial League match in a clean sweep against Paramount Furniture, Bob Check leading the way with 556, and the comb and scissors men left the PBC avenues also boasting of highest team total for the night, 2626, and highest single game, 952.

Kinnear's dropped the Times-Mirror with a 3-1 victory on Anderson's leading drive of 551, while Butcher, Krusts, ditted against Crossett's with Randinelli's 516 the best offering individually on the winning side. At the Arcade, Notre Dame and Fordham won four points each against their respective foes, Santa Clara and Holy Cross. Consistent marks by each team member put the Irish cause over against Santa Clara, though no kegler found the 500 circle in this match, while Frank Gerardi's 517 was the sparkplug of the Fordham triumph over Holy Cross, despite the fact Leo Minnelli equalled that count for the losers.

Tonight Struthers-Wells League opens at the Penn Bowling Center with the following schedule to be followed, starting at seven o'clock: Foremen A. vs. Foremen B, 1-2; Engineers vs. Plate Floor, 3-4; Machine Shop vs. Boring Mills, 5-6; X-Ray vs. Heat Treat, 7-8.

Below are last night's team scores:
 At Penn Bowling Center
 Paramount . . . 849 773 879 2501
 Bab's Barbers 880 794 952 2626

BANK SHOTS

BY FLOYD PASSINGER, Sports Editor

This corner would like to see the birth of a new area grid rivalry next year if scholastic football is still alive by then, and it would be one which would bring together Youngsville High school with the Girard Yellow Jackets. Comparing the two teams against the Warren High Dragons during the past four years, it should be an even series if ever started between the two. Youngsville dropped a 27-0 decision to Warren in 1939, didn't play the Leidigmen in 1940, but the Yellow Jackets were booked for the first time that year and lost to the Blue and White, 19-6. Last year the Eagles were downed 19-0, while Girard bowed 23-13. And this season the Red and White fell 13-0, Girard 6-0. In fact, if anyone holds the edge it would seem Girard is the stronger team. But we aren't sold on the fact that Joe Passaro's team couldn't stop that of Anthony Cutri, so why don't they get together another year and find out. The towns are approximately the same size, Girard possibly boasting an extra pair of twins, but close enough that everything should be even from the start. Both teams could stand a colorful rival as an "extra" drawing card, despite the fact the Sheffield-Youngsville game is the big interest of the Eagles.

This is an item we hate to print, but the time has come and there's no way of ducking the issue. Your correspondent is leaving this weekend to accept a position in the sports department of the Erie Daily Times. We've made several acquaintances and lasting friendships in Warren, have enjoyed the sports activity no end, and it isn't easy to bid farewell to our readers (?), and to those with whom we've been affiliated in the promotion of better sports since joining the Times-Mirror over a year ago. We make this announcement with sincere hopes that sports may expand continuously in the future in the community, and this we are sure will result with or without Passinger, who's really a very minute part in the wheels of progress in local athletics.

Quickies . . . The City Bowling League opens the doors on its new season next Monday evening, not Tuesday, as was erroneously printed in a bowling story earlier this week. . . . There are so many leagues weighing anchors this week, it's hard to keep accurate accounts of them all. . . . Ridgway thumped Kane 19-0 last Saturday, an indication that the Leidigmen have to be a very smooth working outfit for the season finale if they expect to down Coach Sherm Stanford's veteran combination. . . . Meanwhile the Dragons get their chance to score against Kane this Saturday. . . . Erie East is rated the favorite to cop the city championship over there this season, but this corner is looking for a "dark horse" Strong Vincent eleven to cause trouble. . . . They held Sharon to a scoreless tie, and the Tigers are respected by all foes. . . . Sheffield and Youngsville will both be idle this Saturday on the gridiron but will resume their respective hunts for grid fortunes a week hence, when the Wolverines tangle with Kane at home, and Youngsville plays host to Falconer. . . . Warren High's first night encounter since 1940 is on deck two weeks from Friday night, when they'll journey to Oil City. . . .

BIVINS WINS DECISION IN OHIO BATTLE

BY RAY BLOSSER

Cleveland, Sept. 16.—(P)—Slugging Jimmy Bivins proved to be 8,794 home-town customers last night that highly touted Tami Mauriello can be beaten, but he'll have to do it again soon in New York to convince everybody. The 174-pound Cleveland negro let fly a vicious left hook which parked Tami on the floor for a count of one early in the first round, but the 10-stanza scrap was close enough that Referee Joe Sedley even saw it Mauriello's way, although the two judges thought otherwise and the crowd expressed little disagreement.

The Brooklyn Italian, unsuccessfully seeking to avert his first setback in 11 starts as a heavyweight, took in the first round practically everything Bivins had but rallied sharply. Although stunned by the left and some 15 other blows that followed it after he regained his feet, Tami reached such a peak in the tenth that Bivins buried his head in Mauriello's mid-section to guard against any chance of a knockout.

Afterwards Mauriello, who at 180½ was a 2-3 betting underdog with few takers, said he thought he could beat Bivins in the Gotham return match decreed in the pre-fight agreement, while Bivins naturally disagreed. Tami might have won this time, but after nailing up a clear edge in the fifth round, lost it for a low blow. Sedley called the fight five to four for him with the other round even; one judge thought it was five to four in Bivins' favor, while the other said it was six to three for Bivins.

Brooklyn Pro Gridders and All-Stars Mix

Baltimore, Sept. 16.—(P)—The Eastern Army All-Stars, about as rough, tough and ready an outfit as ever tore up a gridiron, tapered off with skill practice today before meeting the Brooklyn Dodgers in the second of three games for Army Emergency Relief.

While the All-Stars brushed up on the technique of blasting the Dodgers in tonight's contest at Municipal Stadium, the Brooklyn pro squad arrived in town and ran through limbering up exercises. Little leaked out of the army camp except that the upwards of 50,000 fans expected might anticipate that the Dodgers would furnish tougher opposition than the New York Giants, who fell before the All-Stars by a 16-0 score last Saturday in New York.

Army partisans pointed with glee to a team averaging 209 pounds, with the line average of 212 pounds and the backfield 207½ pounds. The starting line-up for the Dodgers will find itself outweighed with only one or two exceptions, and by margins ranging from two pounds upwards.

BROWN LOSES BY KNOCKOUT IN 6TH HEAT

Pittsburgh, Sept. 16.—(P)—Ezzard Charles, 21-year-old negro slugger from Cincinnati, won his fifth straight fight in Pittsburgh last night before 9,231 fans by knocking out Mose Brown, another tough negro slugger from McKeesport in the sixth round of their scheduled ten-round bout. Charles, who has his eyes on both the middleweight and light heavyweight titles, weighed 167 pounds to 166 for Brown. In his last previous fights here he knocked out Booker Beckwith and Joseph Basora. Earlier he beat Charley Burley twice by decisions.

Charles was out in front on points throughout the battle, although once or twice he was rocked by Brown's powerful right. It was the first time Brown ever had been counted out, although he had lost by the technical knockout route before.

A terrific right cross to the jaw in the fifth staggered Brown and paved the way for the knockout, which came after a series of rights and lefts.

The crowd paid a gross gate of \$20,773.75. Sergeant Mike Raffa, 131, of Chester, W. Va., who has hopes of some day becoming the featherweight champion, pounded out a decision in ten rounds over Bobby "Poison" Ivy, 130, of Hartford, Conn. Raffa, who got only a three-day furlough from his outfit at Fort Knox, Ky., for the fight, felled Ivy in the tenth and almost had a knockout.

Carmen Noton, 145, Pittsburgh, won a split decision over Vinnie Vines, 147, Schenectady, N. Y. The two fought to a draw here last month.

Weary Cardinals Add Another Half Game To Margin Over Dodgers

Associated Press Sports Writer
 The dogfight in the National League became a two-ring circus again today as the Brooklyn Dodgers took up the chase of the St. Louis Cardinals after two days of idleness during which the Redbirds entrenched themselves in first place by two full games.

The Dodgers' layoff provided at least a temporary gain for the Cards because it gave them a working margin for their battle down the stretch. But nevertheless, there was a possibility that the Dodgers' open dates might work to their profit.

This was because the fiercely fought series in Philadelphia took so much out of the Cardinals that they appeared groggy yesterday even though they dragged down a 3-2 victory over the Phils in 14 innings with the veteran St. John hurling all the way for the losers.

Morton Cooper, winner of 20 games, was on the mound for St. Louis but did not have his customary wares. His teammates gave him a two-run lead in the third inning and ordinarily this would have been enough for the husky right-hander. However, it wasn't yesterday. Cooper was behind almost every batter, allowed the

Phils to tally once in their half the third, to tie the score on Nick Etten's homer in the eighth, and finally retired under fire with one out in the ninth after he had given up 10 hits.

Murry Dickson took charge and pitched six scoreless innings after that. But the Redbirds were feeble Dickson himself had to a off the winning spark by hitting double after two were out in the 14th. Jim Brown then brought him home with a single. The Redbirds obviously were a hitting slump as they moved to Boston to close their eastern campaign with two games against the Braves today and tomorrow. They were out in three of the four games at Philadelphia and were moving in low gear even before they reached Shibe Park.

WILDERNESS GIRL

By LETA ZOE ADAMS

Chapter 32 End Of The Trail

"THE air is bracing on this peak," Tyra said. "It will be a good place to camp while Helen gets back her strength. Are you looking at the plateau, Sandy? What are you seeing?"

Sandy put his glasses aside and turned towards her, smiling a little.

"I'm seeing visions, Tyra. Do you ever see visions?"

She appeared uncertain about how to take his mood. "I often do. Day-dreams they're sometimes called, aren't they?"

"Yes. . . . Sandy picked up one of her hands and traced the lines of the palm as if he were reading them. After a moment he went on, "I think I followed you, from the first, because I knew that I couldn't do without you."

She said softly, "Then both of us were—sort of blind."

Sandy lifted his head to look into her face. "I wonder what would have happened if I hadn't followed you into this Forbidden Land."

He felt the slight shudder that passed over her body. "Don't even think of it!"

"No, because that's part of the past and we can turn our backs on it and face the future." With one arm he drew her close to his side and pointed with his free hand to the undulating bush country spread like a colossal map below them. "There it is—the world. From now on whatever it does to us we'll take standing side by side, like this."

They turned from the scene toward each other. Their eyes spoke but it was a moment before their lips moved.

"Dear," Sandy said. "I love you," Tyra whispered, like a pledge.

He held her more tightly and

her slender arms stole up around his shoulders drawing his head down to the sweetness of her lips.

They lolled in deep cane chairs in McIntyre's patio—Fleming, Helen, Gil, Sandy and Tyra. They were all freshly tubbed and combed. The men wore white drill, the women light, thin dresses that made their browned skins brown. In their hands they held tall glasses that tinkled coolly at every motion. Before them, on a table, lay an odd-looking manuscript, stiff and cracked, but legible.

Sandy and Fleming told their stories. McIntyre listened without interruption, only his singular brows working from time to time to show his emotion.

Now he shifted his huge bulk and grunted—"Uh-uh—quite an experience. And if you don't mind my saying so, you're all damn lucky to be alive. Of course, I'm glad to have the mystery of the Forbidden Land cleared up, although I don't have any idea it'll help the Indians much. I can see that you've—ah—made a real contribution to science, too, Morse, and I don't believe, Fleming, you need to worry about anybody going after your gold cache. It'll be there fifty years from now—or five hundred."

"I may go back, some day," Fleming said. "But right now there are other things to occupy my time."

Helen spoke up quickly. Mr. Fleming is accompanying my next expedition."

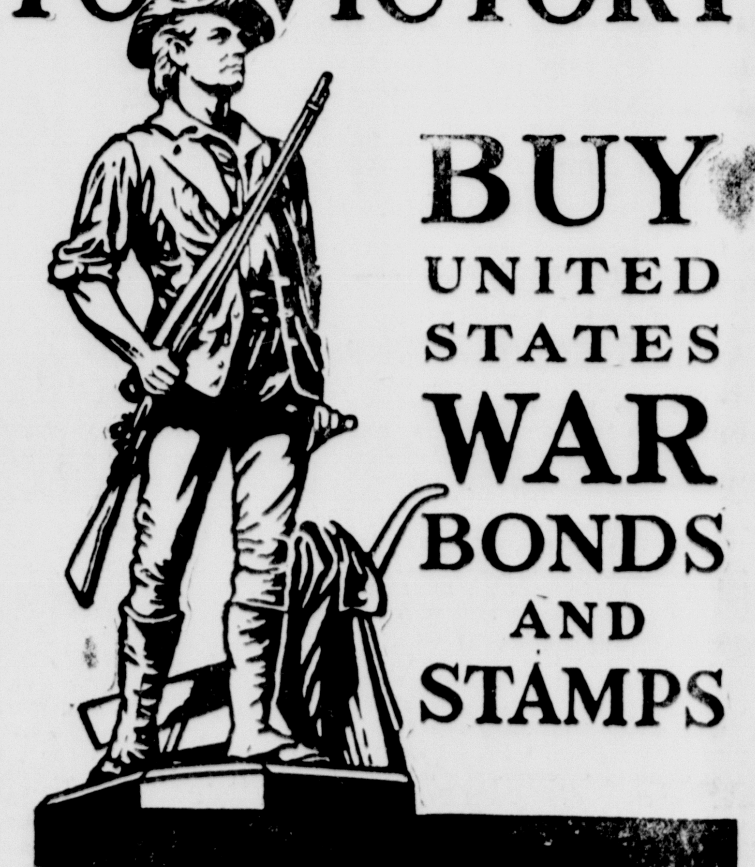

"Uh?" croaked McIntyre. "Starting another? When? Where?"

Helen glanced across at Sandy when he nodded. She addressed McIntyre. "Tomorrow we're all taking the train to Mexico City and, while Sandy and Tyra are having their honeymoon, Gil, Fleming and I will be getting our outfit ready. We're going up into Sonora. We want to find the mummies of a race of giants that are said to be there."

McIntyre intoned, "You folks are flends for punishment, that's all I've got to say. From the frying pan into the fire, uh?"

Tell The World You're Glad That You're An American

YOUR FLAG COUPON Appears in This Issue

FLY YOUR FLAG

Sure, it Makes You Mad!

DO YOU REALIZE that thousands of our good American soldiers are behind barbed wire—with Jap sentries marching up and down outside?

Do you know that American women and children, too, are in Jap concentration camps?

How long do you *want* them there—and what are you willing to do to get them out?

You can't do it by flag-waving, by slogans, and by cheers.

It takes planes—tanks—guns—bombs—shells—ships. And these don't grow on trees.

You—and you—and you—must *buy* these things. Not the Jap way, nor the Nazi way, nor the

Fascist way. The *American* way—freely and gladly. In War Bonds!

The *easy* way—just by saving a dime from every dollar every payday. **TEN PERCENT** of your pay. The management of your company will save it for you, and every time it adds up to \$18.75, they'll buy a WAR BOND for you.

You'll get *interest* on that money. It will increase every year, until for every \$18.75 you invest, you'll get \$25 in ten years.

And *your money* will buy the stuff to beat the Japs—to attack them—to bomb them, to make them wish to their heathen idols they'd never picked a scrap with Uncle Sam!

And the sooner you do your part, by backing up our boys, the sooner they will blast the Japs right out of their sandals.

Down will come that barbed wire, and out will come your fellow Americans. Home again—to a free, decent, clean country—the country we all love.

And you'll be sitting pretty, too. You'll have the clear conscience of having done *your* part, and you'll have built up financial protection for you and your family.

So let's get going. Do *your* part. Ten percent—a dime from every dollar every payday.

Invest *your* share in VICTORY!

5 Reasons Why

- 1 By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
- 2 You prove that you are a patriotic American.
- 3 You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
- 4 You prove to our enemies that we are a United People.
- 5 You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's *safest* investment, by buying a share in the world's most powerful country.

Baptists Plan For Two Day Meeting In Bradford Church

Baptists of northwestern Pennsylvania are planning an unusually interesting annual gathering of the Oil Creek Baptist Association at the First Baptist church of Bradford September 18-19. Sessions will begin at 10 a. m. Friday and continue through a banquet-rally Saturday evening.

Speakers of prominence who will address the gathering are: Dr. Lee J. Beynon, pastor Delaware Avenue Baptist church of Buffalo, N. Y.; Rev. Walter C. Mason, East Aurora, N. Y., for many years a missionary of the denomination in India; Miss Orma Melton, missionary now on furlough necessitated by the war; Rev. H. Edgar Shade, Greenville, past president of the state convention; Dr. R. B. Deer, Rev. George R. Merriam, Rev. Edgar C. Smith and Rev. H. C. Loughhead, all of Philadelphia, state workers in the denomination. In addition to these guest speakers from outside the association area, various pastors from the association will participate in the two-day program, which promises to be of unusual significance and interest.

Sessions will be presided over by F. H. Hetrick, of Warren, moderator, and Rev. H. A. Young, of Kane, vice moderator. Other officers of the association are: A. B. Cody, Bradford, treasurer; Mrs. Wayne H. Branch, Warren, clerk; Mrs. M. C. Goodspeed, Erie, president of the women's group; Lester W. Larson, Westville, president of young people.

The banquet-rally Friday evening, sponsored by young people, is to have Rev. Mr. Shade as guest speaker and a large and enthusiastic group is expected from the 25 churches of the association. The committee on arrangements has been fortunate to secure for the Saturday evening banquet speaker Dr. Beynon of Buffalo. Delegates and visitors to the 78th annual convention will be entertained in the homes of Bradford Baptists. The beautiful new house of worship at Bradford, which was dedicated last October with impressive ceremonies, will afford an added incentive for Baptists of this area to attend and enjoy the fine facilities of this modern church plant.

Harrisburg, Sept. 16—(P)— Governor James asked Pennsylvania voters today to approve his war program by naming Adjutant General Edward Martin to succeed him.

The Republican chief executive declared in a 1,500-word open letter to the electorate that Auditor General F. Clair Ross, Democratic gubernatorial candidate, has "forfeited any right to the confidence" of the state's voters "by his conduct in office, by his abuse of public trust, by his misuse of public funds."

James did not explain his reference to "misuse of public funds." In a dispute over collection of mercantile and inheritance taxes, Dr. Edward B. Logan, secretary of revenue, charged Ross with "pay-roll padding" and called for the dismissal of 126 Ross-appointed tax workers as "unnecessary." Ross replied that the employees boosted collections and worked "promptly, efficiently and economically."

The governor's letter said the November election "almost inevitably" would be decided on Ross' record and that "there is only one possible verdict."

Ross declined to comment on James' statements.

James declared that "as exhibit A on the question, why Clair Ross should not be elected governor, I can think of no more convincing evidence" than a speech by Ross at Allentown last Saturday.

In that address the Democratic nominee listed nine points on which he charged the James Administration failed to cooperate with the federal government in the war effort.

"In a thirty-minute talk," James said, "Mr. Ross' fingers plucked every chord of disharmony, class bitterness and disunity which he possibly could reach. x x x It was the tirade of a demagogue and a scatterer of dust in the eyes of the unwary. Ill-tempered and illogical, it was the speech of a spoiled boy in long pants."

MARTIN ON TOUR
Oil City, Sept. 16—(P)—Adjutant General Edward Martin, Republican candidate for governor, continued his campaign tour of western and central Pennsylvania today with talks scheduled at Tionesta, Clarion and Brookville. He asked voters here last night to "elect to the state assembly and the state senate men or women whose ideas and ideals conform with those we are now presenting to the people."

"If a voter casts his ballot for me and at the same time for a representative or a member of the state senate who will oppose the program I am now outlining, the one vote offsets the other and the score is zero," he declared.

The Republican candidate described the legislative sessions in the Earle administration as "disgraceful."

Elk Deputy Pays Visit To Local Lodge

The fall and winter activities of Warren Lodge No. 223, B. P. O. E., was launched with a big meeting last evening despite the humidity that prevailed. District Deputy Burt S. Burns, of Reynoldsville, made his official visit and the degree was exemplified for a class of candidates. Mr. Burns was accompanied by Regis Mahoney, of DuBois, state district vice president. Both spoke briefly about the plans for the year and complimented the lodge on its work in the interest of the war effort and other activities.

Dr. D. A. Smith, president of the North district, a member of Warren lodge, called attention to the meeting to be held here next Sunday when it is expected that most of the ten lodges in the district will be represented. He urged a

large attendance of local members. The session will start in the local club house at three o'clock and will be followed by a dinner.

It was announced that the choir from the Titusville lodge of Elks will be in Warren for the meeting Sunday and will give a program under the direction of Father William Moore, of this city.

Following the meeting a delicious luncheon was served by the house committee.

Preceding the session officers of the lodge and past exalted rulers had dinner with the visitors at the Carver Hotel.

Forest County Fair Promises Program Of Much Interest

This week on Thursday, Friday and Saturday, September 17, 18, 19, the Forest County Fair will be held at Tionesta. Much effort has been expended to make this fair even more interesting than those of preceding years, as the following program will indicate.

Thursday, September 17th, 1:30-9:00 p. m.—Exhibits received and placed, exhibits not open to public; 6:00-10:00 p. m.—Amusements open.

Friday, September 18th, 9:00 a. m.—Judging exhibits; 12:30 p. m., log sawing, log chopping contests, prizes awarded; 1:30 p. m., soft ball games, Hickory Twp. and Tionesta H. S.; 2:30 p. m., concert by Robert M. Clark H. S. Band, of Pleasantville; 3:00 p. m., final soft ball game; 7:30 p. m., band concert, fiddlers' contest, square dance, Tionesta auditorium.

Saturday, September 19th, Live-stock Day—9:00 a. m., judging livestock; 10:00-12:00 a. m., boys' and girls' judging contests; vegetables, poultry, dairy cows; 1:00 p. m., horse pulling contests.

As in the past, the farm products and poultry exhibits will be

on display in the Daubenspeck Garage building, and this year the home economics exhibits will be placed in the Robinson store building. Again the hobby and antique show will be an unique feature of the fair, and the committee in charge reports many entries in these classes.

Capable and experienced judges have been secured to name the prize-winning exhibits, and those who will act in that capacity are Miss Arlene M. Schure, county home economics adviser, Warren; Miss Mary Ruth Strain, home economics extension representative, Mercer; E. G. Ifft, county farm agent, Franklin; F. C. Bunnell, county vocational adviser, Brookville; John Hughes, county superintendent of schools, Brookville; F. Pierce McCollough, farm manager, Warren State Hospital, Warren.

Much interest should be aroused in Forest county by the log sawing and log chopping contests, since many residents of this section have become skilled in such occupations, and these contests will afford an opportunity to test their ability.

The program for Friday evening will permit many to participate actively in it, as the fiddlers' contest will be followed by a square dance. The first feature of the evening will be a concert by the Robert M. Clark High School Band of Pleasantville.

Boys and girls under twenty years of age will be eligible to take part in the judging contests beginning at ten o'clock on Saturday morning. Classes in vegetables and poultry will be judged in the garage building, and the dairy cows will be judged on the grounds near the cattle shed.

Entertainment at the fair will reach a climax on Saturday afternoon when the horse pulling contest will be the attraction. Many well-known teams in both light and heavy classes will be present to test their strength. William Kerr will be in charge of these contests.

On all three afternoons and evenings the rides and amusements on the fair grounds will be open to the public.

MEMBERS NEEDED FOR DEFENSE UNIT

More members are needed for Warren County's unit of the Pennsylvania Reserve Defense Corps Auxiliary. Tonight, the organizer, C. D. Cannon will be at the Armory from 7:00 to 9:00 p. m. ready to sign up anyone interested. Full particulars will be available. It is hoped that the response from the public in general will be as good as that of the clubs already contacted.

During the evening, the members of the Irvine Rod and Gun Club will be shooting and they are going to declare a recess during which they will hear the particulars and be invited to join the Defense Corps Auxiliary. As many members should attend as possible.

Thursday night the same appeal will be made at a meeting of Dinsmore-Schwing Post V. F. W. and Friday evening again the recruiting book will be open all evening at the Armory.

Under a recently announced program, the air force is being expanded to 2,000,000 men, with about 50 per cent of them in service before the end of the year.

Kilts or Trousers---Take Your Choice

WOOLY-LIKE winter cottons, important fall-winter 1942 fashion trend, make the warm-looking clothes pictured here, and these five garments are apt candidates for any campus or weekend wardrobe. The well made, slim slacks suit, shown at left, is composed of cotton clan plaid trousers, cotton covert jacket lined with the same plaid, covert waistcoat. All are good companions to either of the two pieces which form the second costume, shown at right; tailored shirt, and slim culottes which look like a skirt.

HOLLYWOOD SIGHTS AND SOUNDS

By ROBBIN COONS
HOLLYWOOD — This week Mary Martin is "not working." She can sing "Time on My Hands" and mean it. And what does Mary Martin do with her time? It goes like this: Monday: Breakfast at 7, an hour with infant daughter Heller ("she's bound to be an actress, the way she mugs already.") before she puts Heller out to sun. A session of menu-planning with the cook. (If there is a cook. Once Mary came home from the studio to hostess a dinner party, to be greeted by the nurse with news the other servants had already gone into defense jobs and the nurse was on her way. Mary set the table, husband Richard Halliday brought in flowers, they called a caterer—and dinner went on as usual.) Menus are planned half a week in advance. Then Mary "flies" to market. "Flies" back for lunch with a reporter (this one) after which she goes to NBC to talk with her music arrangers. Dinner at 7:30 — she hopes.

TUESDAY: Breakfast ditto. Heller ditto, to Paramount at 9 for still pictures, to talk over new picture "Canadian Capers" with the producer, more stills until 5 o'clock when she rehearses for radio show short-waved to service men over the world. Dinner in Hollywood, then "Command Performance." Home.

Wednesday: Voice lesson at 9, lunch, and "fly" to rehearsal for Thursday's broadcast, meet writers on her script. Session with the

dressmaker, have hair and nails "done." The Hallidays dine out.

Thursday: Voice lesson again, to NBC early to rehearse broadcast, then broadcast.

Friday: To Paramount for color photographs, changing wardrobe and hair-do ad infinitum.

Saturday: Victory Committee assignment to some desert army camp. Gone all day.

Sunday: A day of rest. Mrs. Halliday gets overwhelmed with domesticity, decides to scrub everything. Mr. Halliday decides to scrub the roof (glass) of the sun room.

THEN there are the weeks Mary Martin is working. She does all the same things, only begins at 6 a. m. and is not home until 7:30. She takes her voice lessons at lunchtime. Thursdays she leaves Paramount at 1 p. m. to be at NBC at 1 p. m., a very neat trick. She snatches time off to get to the doctor for her iron "shot"—she's trying to gain weight. She finds time for one or more of her proteges — Marjorie Garland, Jean Porter, Zora Gray, etc. She "does" their coiffures, gives them tips on dress, wangles auditions for them, and keeps her fingers crossed. (Mary Martin, remember, had a hard time getting a hearing herself once.) She sees her dressmaker and shops for hats. She shops for groceries by telephone from the set. One day she finished work at 6:30, went to Riverside minus dinner for a camp broadcast, was home at 12 to be up at 6 a. m.

And it's a funny thing, but she thrives on it.

HE DROVE an expensive automobile, made the city's best night clubs, seemed to have money to burn.
